Arab Boycott Office

Admits Failure

The Arab League Boycott office yesterday admitted for the first time the failure of its efforts to prevent the implementation of the Reparations Agreement with Western Germany. According to an ANA despatch from Cairo, the Office will continue its efforts to persuade the Germans to cancel the agreement.

## French Halt Evacuation From Dien Bien Phu

HANOI, Sundar—The French High command said today that it was suspend g the evacuation by helicopter of seriously wounded French Union troops from fallen Dien Bien Phu, pending the outcome of Phu, pending the outcome of the special pending the outcome of the special pending the special pending to end the seven-year-old Indo-China War.

Restricted sessions on the Korean problem are also likely to be held during the week, although both East and West appear to have written off all hope of reuniting the country.

South Korean circles are openly predicting that the Korea talks will break down this week on the issue of United Nations supervision of elections, and the American delegation is showing marked signs of impatience at the appearen futility of the talks.

The two officers who were at the appearen futility of the talks.

The two officers who were at the appearen futility of the talks.

Red River delta for an assault on Hanoi.

The two officers who were at Dien Bien Phu today stated on their return to Luang Prabang, the Laotian capital, that the fortress airstrip was still in very bad shape. They added that hundreds of coolies would be needed to fill the craters and that the work may take a considerable time.

They were received by the rebel commanders in a tent made of a large parachute, and were offered tea and cigarettes. All over the ruined bastion were multi-coloured parachutes under which the Vietminh soldiers and the French Union casualties were living.

living.
The Vietminh Radio today The Vietminh Radio today broadcast a statement on an agreement reached with the French three days ago on the evacuation of the wounded. It said that the evacuation would be earried out in three contingents, the first two covering 753 men, and the third a number to be decided later.

Demands Seat

GENEVA. Sunday (UP).

A third delegation is now bidding to represent Vietnam at the Geneva Conference.

With things already complicated by the rival claims of Bao Dai's government and Ho Chi-minh's Vietminh regime, a group of "neutralista" who are anti-French and anti-Communist at the same time claimed the right to represent Vietnam at the conference table.

The delegation is still in Indo-China, French sources asid, but it is seeking passports to come to Geneva. The leader is Nguyen Ngog-bich, commander of a military area and a member of the National Assembly Presidium before the split between the French and Ho Chi-minh in 1946.

## **Hew Microscope Aids Cancer Research**

UNITED NATIONS, Sunday.— The world's most powerful elec-tron microscope was turned over here last week to the Karolinska Institute of Stockholm for use in

cancer research.

The seven-and-s-half foot instrument will permit study of
particles smaller than one tenmillionth of an inch in diameter,
smaller than ever seen before. It
will magnify specimens 30,000
times and produce usable photographs 200,000 times larger than
the original — double the capacity of earlier electron models.

Padio Conviction of Radio Corporation of America (RCA) built the microscope in six months at a cost of \$24,600. The Rockefeller Foundation purchased the instrument for the Swedish Institute.

RCA specialists said the importance of the microscope could be judged from the fact that the previous model had shown scientific for the fact. previous model and shown scientists the polic virus for the first time and had been able to provide useful photographic enlargements of only up to 100,000 times, half the size the new microscope can turn out.

times, half the size the new microscope can turn out.

Dr. Sjostrand head of the Ka-rolinska Institute, said the in-strument would first be used to widen information about normal "Only when sufficient observa-

only when sumceent observa-tions have been made regarding normal cells." Dr. Sjostrand said, "can the study of pathologically transformed cells, such as can-cer cells, be expected to produce reliable results.

"There is hope that the analyses by electron microscopes will lead to discoveries which may cast light over the character of the cancerous process and thereby provide a clue to the understanding of the cancer disease."

## US Signs of Goodwill Welcomed, **But** Aid to Iraq Spoils Effect

The professions of U.S. friendship towards Israel expressed recently by the Secretary of State, Mr. John Poster Dulles, and by President Elsembower himself, as well as Mr. Henry Byroade's somewhat mitigating statement in Constantitiopic, are welcomed by "Omer" (Histadrut), but the paper points out that the actions of the U.S. administrations of the U.S. administration, and more particularly the arrival of a military mission in Baghdad, do not jibe with those declarations of good will, though there is no doubt of their sincerity.

The Western powers in general show deplorable weakness in face of Arab asgression, the paper says, and mentions in this connection Britain's condoning the Jordan refusal to accept the U.N. Chatrer's requirement of international conflicts. "Herut" on the other hand, warns the Israel Government and public opinion against the "soothing manoeuvres" which come now as an aftermath to the recent shocks while the anti-Israel bolicy of the U.S. Government goes on. "Ha'sret" (Independent) once more u rg e s the return of the Israel delegation to the Mixed Armistice Commission with Jordan, World opinion as accepts the resolutions of the Commission at their face value, and therefore Israel should try to make her just claims, heard inside the Commission, The paper also criticizes the personal attacks on the MAC. Chairman (Mapam), which deplore the hardships which a strike inevitably would bring about for the population, but holds the Government and the Histadrut leadership responsible for the situation, since they flatly refuse to enter negotia.

prizes to be awarded to faultiess drivers.

The bus cooperative, which now has 2,000 members and some 1,000 employees, does not conceal its anxiety about the steadily decreasing number of passengers because of competition by the railways and inter-urban sheruf taxis. This is the main reason behind their efforts to improve the services.

In this connection, Egged welcomes the supervision of the Ministry of Communications, the Press was told, and pledges its continued cooperation in the Amortization Fund with which replacement parts are bought, Egged is still of the opinion, however, that it should be able to import such parts directly instead of getting them through importers,

# For Settlers

Jerusalem Post Reporter
HAIFA, Sunday.—The Labour
Exchange has sent an appeal
to the Sha'ar Ha'aliyah im.
migrant camp here, asking for
100 families to be sent for
settlement in Upper Galilee
where a shortage of labour has
developed. However, because
most of the immigrants in the
camp have already decided to
join villages in the Negev.
which is now a "priority settle.
ment area," the request can be
only partly met, and rather
less than 100 families will leave
for Upper Galilee this week.

Of 80 Cochin families at the
camp, many have decided to
settle at Nevatim in the Negev.
In the village, they will work
in orchards and grow field
crops. The vanguard is due to
leave on Tuesday, Other families

## Men Need Many Wives, Says Doctor

Wives, Says Doctor
MEXICO CITY, Sunday (UP).

A Mexican doctor stated today that most men, in order to stay healthy, need "lots" of wives.

Marrying only one woman, said Dr. Anselmo Nunes, is "contrary to natural organic law." Monogamy on the part of men, he added, is responsible for such illnesses as hyper-tension, arteriosclerosis, neurosis and schizophrenia.

Dr. Nunes suggested that men should limit the tenure of their first marriage to a two-year "training" period, then take one or more additional wives.

Men, Dr. Nunes told a meeting of the Mexican Eugenics Society, are naturally polygamous "and both anatomically and mentally require plural wives."

Women, he concluded, need only one husband each.

### 21 Haifa Dealers On Trial for Fowl Fraud

Jerusalem Post Raporter
HAIFA, Sunday. — Remand orders of five to 12 days each were issued against 12 Haifa chicken dealers, by the Haifs Magistrate, Mr. A. Neuman here today, on charges of passing forged chicken ration coupons and obtaining large quantities of fowl by false pretences.

They were arrested on Friday together with nine other dealers two of whom were released for medical reasons, and the other seven of whom are to be brought to Court tomorrow. First Inspector Y. Kazaner, opposing ball, told the Magistrate that investigations were widening in Haifa and the vicinity and more arrests would probably be made.

### Israel Booth Opened At New York Import Show

NEW YORK, Sunday. — "Israel's exports in 1953 reached a new peak, by far the highest since the State of Israel was established," Mr. Yehuda Levit, Consul for Economic Affairs at the Israel Consulate in New York, said today in opening the Israel booth at the New York International Import Show. Mr. Levit went on to say that since Israel primarily can offer goods which in their manufacture entail handwork, a broad range of goods such as modern custombuilt furniture with artistic individual designs painted by Israel's foremost artists could be exported to the United States.

Many thousands of products from all over the world are on display at the show, which will last for four days. (INA, Reuter) LOST Jerusalem REWARD

## Radioactive Rain Falls in Japan

TOKYO, Sunday (UP), — Japanese professors in Osaka and Nitgata. Japan, reported new cases of "radioactive rain" last night and warned residents not to drink it.

In Nitgata, on Japan's western seacoast, Dr. Hironobu-Watanabe of the Nitgata University Medical College said that he had recorded Geiger counter readings averaging 419.5 counts per minute on rain water collected between noon Priday and early Saturday morning.

on Friday and early Saturday morning.
He added that it would not harm the human body but that it would be "extremely dangerous to drink it directly," according to Japanese press reports. Nothing was said about possible pollution of the city water supply.
The Professor did not say where he thought the radioactivity came from but believed it resulted from an H-bomb exploded on about May 9.

## **Wine Workers Sacked** For Sabbath Smoking

HADERA, Sunday. — Fourteen workers of the Zikhron Ya'acov ma'bara and northern housing project were dismissed from their temporary work at the local wine press on the eve of Independence Day by pressure from the local Rabbinate, The Jerusalem Post correspondent in the Shomron reliably learned today.

The Secretary of the Zikhron Ya'acov Labour Council said that the 13 workers were "guilty" of smoking in public on the Sabbath, and the 14th worker had married without a kruba. The religious overseer of the wine press thought, therefore, that their work made the wine unfit for ritual purposes.

It was pointed out by the Labour Council that one of the dismissed workers did not smoke at all and that Zikhron farmers regularly worked their vine-yards on the Sabbath without known protests from the Rabbinate.

Don't Buy Blindfolded!

Are you aware that not all washing soaps now on the market had the prescribed weight of 500 grams when leaving the production line? YOU cannot check it, because not even the best washing soap will weigh 500 grams when you buy it, due to evaporation water during transport and storing.

There are also soaps of inferior quality which may ruin your linen and be unkind to your hands. YOU cannot test it, that is a chemist's job. You will notice the effect only when the damage will have been done, and then it will be too late.

HOW CAN YOU PROTECT YOURSELF?

Only by buying a product whose name is a guarantee in itself. SHEMEN's "MENORAH" Soap embodies three decades of soap-making experience. It is checked and re-checked in Shemen's most up-to-date laboratory at each stage of production, for quality as well as for weight.

ITS A SHEMEN PRODUCT!

attest of these was what garbage from use at tempt is made to how it is ultra-Jewish sensibility that now labels the United Nations Observers as unobjective because they produce, with almost unfailing regult and must take the produce with almost unfailing regult and take the progress that a steep the service of the serv

The connecting water pitch the property of the an Israel case then a United Nations Observer should have the courage and judicial power to reckon with it whether Israel is present or not. When we see that kind of strict justice being exercised, we might consider the possibility of a return. To go back before such a manifestation takes place will be to put a premium on judicial weakness.

THE beginning of the work on the site of the Hadas sah Hebrew University Medical Centre at Ein Kerem at last brings nearer to reality the long - awaited MEDICAL realization to the whole population of Israel of the most modern and efficient medical services that science can give.

As one now contemplates the substitution of the new medical centre for the dereliet site on Mt. Scopus, one does so with nan Israel case then a United Nations Observer should have the courage and judicial power to reckon with it

As one now contemplates the ubstitution of the new medical entre for the derelict site on it. Scopus, one does so with

nam, where they are ready to concede the existence of a civil war, whereas in Laos and Cambodia they are demanding unconditional Communist surrender. The French argue that there is no civil war in either of these countries, and that the disturbances are the result of invasion and infiltration by the Vietnamese, with the support of only a headful.

The Communist leader, Ho Chi Minh, was expected to limit his demands at Geneva to Vietnam territories, and the claims staked by the Communists for Laos and Cambodia have been a disagreeable shock to the Allied Powers. These three essential differences rule out any serious prospect of getting the present French and Vietminh leaders to agree at Geneva on mutually accepable terms; and there seems reason to doubt whether either side really thought the other could be persuaded.

American Backing

What seems to have been in the French mind was that if France stood out for conditions designed to prevent Communist encroachments, it could count—despite earlier disappointments—on ultimate U.S. support. This would mean one of two things: either that the Russians and foliance of forces changed, and France could then negotiate at a later date from a position of strength instead of—as at present—from a position of weakness.

On the Vietminh side, the proposals seem calculated to appeal
